

# SUBJECT INDEX TO VOLUME 19

JANUARY—JUNE, 1956

References are to page numbers. An asterisk denotes title and reference only

- Abdomen, upper, malignant lesions of, effect of 2-million-volt radiotherapy, 253  
 —, x-ray examination in acute pancreatic disease, 331  
 Abortion, criminal, exchange transfusion for soap poisoning in, 82  
 Abscess, cerebral, multiple metastatic, morbid anatomy and clinical features, 238  
 Acanthosis nigricans of benign juvenile type, 72  
 Accident frequency of bus drivers, effect of psychological tests, 252  
 — prone workers in aircraft factory, clinical study, 407  
 — proneness, identification, 252  
 Acetazolamide, effects on respiratory and renal function, 378  
 — in Ménière's disease due to hydrops of labyrinth, 379  
 — infusion, effect on renal electrolyte transport in healthy and nephrotic children, 474  
 —, oral, effect on composition, acidity, and volume of urine in severe renal disease, 56  
 "Acetosulphone" in dermatitis herpetiformis, 314  
 Acetylcholine, action on blood vessels of perfused liver, 11  
 — provocation of dyspnoea in diagnosis of respiratory allergy, 204  
 Acetylsalicylic acid in rheumatic carditis compared with corticotrophin and cortisone, 60  
 — — — rheumatoid arthritis compared with cortisone, 229, 479  
 — poisoning, haemodialysis by artificial kidney in, 497  
 — in haematemesis and melaena, 449  
 Achlorhydria, urinary radioactivity test for intrinsic-factor activity in, 50  
 —, value in detecting gastric carcinoma, 365  
 "Achromycin", *see* Tetracycline  
 Acidosis, respiratory, in chronic pulmonary diseases, active ventilation for, 471  
 Acne vulgaris, pustular, antibiotic treatment, 152  
 Acromegaly, decalcification in, calcium balance and urinary calcium output in, 223  
 ACTH, *see* Corticotrophin  
 Actinomycin C in advanced Hodgkin's disease, 467  
 Actinomycosis, erythromycin treatment, 430  
 "Acton prolongatum" in rheumatoid arthritis, comparison with gold therapy, 230  
 Addison's disease, aldosterone treatment, 224  
 — — —, metabolic effects, 136  
 — — —, metabolic effects of 9- $\alpha$ -fluorohydrocortisone and of cortisone in, 224  
 Addison's disease, pathological changes in endocrine glands in, 95  
 — — —, variations in renal excretion of sodium independent of change in corticotrophin dosage, 475  
 Adenopathy, bilateral hilar, significance and management, 132  
 Adolescence, nasopharyngeal fibromata in, 379  
 Adrenal activity in cholera, 359  
 — apoplexy, post-traumatic, 185  
 — cortex function in benign pituitary tumour, 134  
 — — —, prolonged hormone or salicylate treatment of rheumatic fever and, 388  
 — disease, x-ray diagnosis, value and limitations, 412  
 — glands, histochemical changes during hypothermia, 337  
 — — —, reflex excitation, noradrenaline secretion after, 301  
 — hyperplasia, congenital, cortisone treatment, steroid excretion during and after, 57  
 — insufficiency, metabolic effects of 9- $\alpha$ -fluorohydrocortisone and of cortisone in, 224  
 Adrenalectomy, bilateral, metabolic changes and therapeutic considerations, 300  
 — — —, effect on experimental asthma, 361  
 — — —, total, metabolic response to, 224  
 — with sympathectomy in essential hypertension, 44  
 Adrenaline, action on blood vessels of perfused liver, 11  
 — — —, effect on coronary blood flow, 213  
 — and hypoglycaemic reaction, 477  
 — overdosage, piperoxan treatment, 497  
 Adrenochrome as cause of schizophrenia, 242  
 Aerosols of pollen extracts in pollen hay-fever and asthma, 32  
 Agammaglobulinaemia, failure of plasma-cell formation in bone marrow and lymph nodes in, 205  
 Age, influence on skin reactivity to allergy tests, 204  
 —, parental, congenital malformations and, 160  
 AH-2526, antihistamine with long-lasting action in guinea-pig, 345  
 Aircraft disaster, Comet, interpretation of injuries in, 82  
 Albamycin, laboratory and clinical studies, 429  
 Alcohol, influence on cerebral haemodynamics and metabolism, 269  
 Alcoholism, chronic, carbohydrate metabolism in, 446  
 — — —, tuberculosis and, 354, 355  
 Aldolase activity in serum in early diagnosis of infective hepatitis, 338  
 —, serum level, in experimental liver necrosis, 178  
 — — —, significance in tumour-bearing animals, 178  
 Aldosterone, biological effects in man, 224  
 — — —, effect in Addison's disease, 224  
 — excretion, increase immediately after operation, 136  
 — — —, metabolic effects in health and in Addison's disease, 136  
 — regulation of sodium and potassium balance, 301\*  
 — secretion, regulatory mechanisms, 224\*  
 Alkalosis of potassium deficiency, renal factor in, 362  
 Allergy, 31-2, 114, 204, 282, 360-1.  
*See also* Asthma; Eczema; Hay-fever  
 —, experimental, serum electrophoretic pattern in, 361  
 —, histological reactions in nasal mucosa caused by pollen, 114  
 — in children, incidence and special features in Finland, 204  
 —, respiratory, provocation of dyspnoea with acetylcholine as diagnostic test, 204  
 —, skin test reactions, influence of age on, 204  
 Alopecia, cicatricial, relation of pseudopelade of Brocq to, 152  
 "Alseroxylon" in pruritic and psychogenic dermatoses, 152  
 "Ambonestyl", anti-arrhythmic action, 100, 191  
 —, pharmacological action, 191  
 Amentia, phenylpyruvic, electroencephalogram in, 484  
 Amidomonorhodanid-H diazo compound in pulmonary tuberculosis, 437  
 Amino-acid mixtures, intravenous infusions in muscular atrophies, 149  
 3- $\beta$ -Aminoethyl pyrazole, *see* Histalog  
 Aminopterin in psoriasis, 152  
 p-Aminosalicylic acid hypersensitivity, management, 192  
 — — — in sputum, elimination of effects on culture for *Myc. tuberculosis*, 96  
 — — — and isoniazid, mode of action in combination, 429  
 — — — and streptomycin in combined intermittent treatment of pulmonary tuberculosis, 109  
 — — —, potassium salt, in pulmonary tuberculosis, 192  
 — — — sensitivity of *Myc. tuberculosis*, solid and liquid media tests compared, 187  
 Ammonia content of blood in congestive heart failure, 464  
 "Amodiaquin" in malaria, single dose of, 281  
 Amoebiasis, amoeba-bacteria relationship in, 90  
 —, antibiotic fermentation residues in, 29  
 —, chronic, diagnosis, 112  
 —, combinations of fumagillin and tetracycline or erythromycin in, 358  
 —, erythromycin treatment, 112

- Amoebiasis, fumagillin treatment, 30, 113  
 —, hepatic, absence of diffuse lesions at necropsy and in biopsies, 423  
 —, — and intestinal, biallilamicol treatment, 348  
 —, —, pathogenetic mechanism, 423  
 —, —, immobilization test, 268  
 —, —, oxytetracycline treatment, 113  
 —, —, systemic, hepatic involvement, erythromycin stearate treatment, 112  
 —, —, tetracycline treatment, 203  
 Amoeboma of intestine, 444  
 Amylase level in serum in diagnosis of acute pancreatitis, 339  
 — — — — — mumps, 272  
 Anaemia, Cooley's, blood transfusion to suppress haematopoiesis, 294  
 —, —, effect of splenectomy in, 49  
 —, —, fever and heat as causes of erythrocyte fragmentation in, 375  
 —, —, in a Scottish family, 294\*  
 —, —, haemolytic, acquired, after infective hepatitis, 208  
 —, —, in *Haem. influenzae* meningitis treated with specific rabbit serum, 14  
 —, —, toxic, due to phenacetin, 469  
 —, —, idiopathic hypochromic, pathogenesis and treatment, 49  
 —, —, in infants, intramuscular iron therapy, 317  
 —, —, premature infants, cellular composition of bone marrow and, 419  
 —, —, iron deficiency, gastric mucosa in, 342  
 —, —, therapy, various compounds compared, 294  
 —, —, megaloblastic, after partial gastrectomy and gastro-enterostomy, 469  
 —, —, penicillin treatment, effect on serum cyanocobalamin levels and absorption of radioactive cyanocobalamin, 468  
 —, —, with lesions in small intestine, 215  
 —, —, nutritional megaloblastic, correlation of urinary folic acid excretion and serum cyanocobalamin levels in, 49  
 —, —, pathogenesis in carcinoma patients, 375  
 —, —, pernicious, atrophic gastritis of fundus in, 50  
 —, —, —, cyanocobalamin content of tissues in, 51  
 —, —, —, and intrinsic factor in, 50  
 —, —, —, oral, without intrinsic factor in, 374  
 —, —, —, gastric carcinoma in, 36, 365  
 —, —, —, relation of atrophic gastritis to, 50  
 —, —, —, trophic disorders in cutaneous and mucous tissues in, 51  
 —, —, —, urinary radioactivity test for intrinsic-factor activity in, 50  
 —, —, refractory, cobaltous chloride treatment, 375  
 —, —, sickle-cell, *see also* Sickle-cell trait  
 —, —, —, haemoglobin-C disease, 215  
 —, —, —, in a mulatto, 468\*  
 —, —, —, in West Africa, 7, 468\*  
 —, —, —, liver disease in, 215\*  
 —, —, —, myoglobin in, 420  
 —, —, —, target-cell, in England, 468  
 Anaesthesia in artificial pneumothorax, 498  
 —, —, ear, nose, and throat operations, controlled hypotension in, 168  
 Anaesthetics, 83-4, 166-8, 325-6, 408-9, 498  
 Analgesia after abdominal surgery, assessment by spirometry, 190  
 —, —, spinal, minor sensory neurological defects after, 84\*  
 —, —, neuropathy caused by detergent contamination of anaesthetic agents, 325  
 Anastomosis, arterio-venous, of heart muscle in hypertension, histological study, 262  
 —, —, portocaval, evaluation of results by intrasplenic pressure measurements, 366  
 —, —, vago-splanchnic and splanchno-vagal, gastric secretion after, 37  
 Anatomy Acts, development in U.S.A., 334  
 Aneurysm, arterio-venous cavernous sinus, surgical anatomy, 394  
 —, —, cardiac, surgical treatment, 212  
 —, —, cerebral, congenital, 92  
 —, —, intracranial, direct attack in surgical treatment, 393  
 Angina pectoris, effects of lipotropes and sitosterol on level of blood lipids and clinical course, 124  
 —, —, —, long-acting coronary vasodilators in, 213  
 —, —, —, induction by fat ingestion in coronary artery disease, 43  
 —, —, —, nitroglycerin in, mechanism of action, 190  
 —, —, —, ointment in, 292  
 Angiocardiography in pulmonary arterio-venous fistula, 373  
 —, —, reduced intrathoracic circulation as aid in, 255  
 Angiography, ante- and post-mortem, of pulmonary arterial tree in advanced tuberculosis, 19  
 —, —, in children, clinical aspects, 85  
 —, —, diagnosis of traumatic cerebral lesions, 499  
 Anoxia, neonatal, relation to mental retardation, 74  
 Antacid liquid suspensions and tablets, evaluation in relation to secretory dynamics, 100  
 Anthrax, cutaneous, analysis of 117 cases, 272  
 Antibiotic administration, prolonged, effect on weight in young men, 205  
 —, —, combinations, effects on *Clostridia in vitro*, 349  
 —, —, for suppression of resistant variants in urinary infections, 381  
 —, —, fermentation residues in amoebiasis, 29  
 —, —, in primary tuberculosis in children, 351  
 —, —, resistance of micro-organisms isolated in a general hospital, 101  
 —, —, sensitivity of staphylococci in relation to bacteriophage types, 265  
 —, —, treatment, *Candida* endocarditis after, 350\*  
 Antibody distribution in serum, electrophoretic study, 10  
 —, —, formation, relation between normal and immune haemagglutinin, 97  
 —, —, glomerular-localizing, histological demonstration in experimental glomerulonephritis, 90  
 —, —, skin-sensitizing, electrophoretic separation from sera in ragweed sensitivity, 32  
 Anticholinergic drugs, effects on basal gastric secretion compared, 100  
 Anticoagulant(s), acquired circulating, in systemic collagen disease, 142  
 —, —, effect on serological tests for syphilis, 26  
 —, —, "marcoumar", clinical trial, 346  
 —, —, treatment, long-term, effect on prognosis of myocardial infarction, 370  
 —, —, of intermittent insufficiency of internal carotid arterial system, 482  
 —, —, oral, prothrombin pattern during, 346  
 Antigen from *Myco. marianum* in leprosy, clinical and therapeutic study, 202  
 —, —, gonococcal, paper chromatographic examination, 111  
 —, —, with excessive anticomplementary activity, 111  
 —, —, of Egypt virus 101 strain, direct staining, 344  
 —, —, rickettsial, preparation, 9  
 —, —, specific, in serum of carcinoma patients, detection by Schultz-Dale test, 417  
 —, —, variations in secondary antibody response to, 10\*  
 Antihistamine, *see* Histamine antagonist  
 Antimycotics, methods for assay *in vivo* and *in vitro*, 12  
 Antistreptolysin determination, 426  
 Antithrombin content of plasma, determination by quantitative chemical method, 183  
 "Antrenyl", *see* Oxyphenonium bromide  
 "Antrypol" in onchocerciasis, 444  
 Anuria in chronic nephritis, 381  
 Anxiety and autonomic reaction to pain, 70  
 —, —, cutaneous vascular reaction in, 46  
 —, —, states, electrical treatment, 243  
 Aorta aneurysm, healed dissecting, 47\*  
 —, —, coarctation, pre- and post-operative findings, 371  
 —, —, with patent ductus arteriosus, 464  
 —, —, diverticulum approach to, 451  
 —, —, stenosis, clinical study, 290  
 —, —, evaluation by left heart catheterization, 457  
 —, —, valvular disease, dynamics of circulation in, 40  
 Aortitis, syphilitic, treponemal immobilization test in seronegative cases, 357  
 Aortography, abdominal, in differentiation of renal cysts from neoplasms, 87  
 Aphasia, developmental, delayed speech and, 250  
 Apnoea, controlled, with succinylcholine, 408  
 Apoplexy, adrenal, post-traumatic, 185  
 —, —, stroke, immediate cortisone therapy in, 236  
 —, —, sympathetic block in, 482  
 Appendix, *Dientamoeba fragilis* infestation, 8  
 "Apresoline", *see* Hydrallazine  
 Arachnoiditis, adhesive, and vascular blockage caused by detergents and chemical irritants, 325  
 "Aramine", *see* Metaraminol  
 "Arfonad" for controlled hypotension in paediatric surgery, 167  
 Arrhythmia, auricular flutter, cardio-circulatory performance in, 460  
 —, —, —, mechanism studied by oesophageal and endocavitary leads, 460

- Arrhythmia, auricular, in bundle-branch block simulating ectopic ventricular tachycardia, 41  
 —, effect of "ambonestyl" on, 100, 191  
 —, gallop rhythm, electrokymographic study, 41  
 —, supraventricular, 1-noradrenaline treatment, 289  
 —, ventricular, due to digitalis, precipitation by carbohydrate administration, 211  
 Arsenic in early syphilis, long-term results of intensive treatment, 28  
 "Arterenol", *see* Noradrenaline  
 Arteries, *see also* Vascular disease  
 —, cerebral, arteriosclerotic occlusion, mechanism and therapy, 92  
 —, —, endothelial and fibroblastic cell proliferation in arteriosclerotic occlusion of, 340  
 —, coronary, *see* Coronary  
 —, internal carotid, intermittent insufficiency, anticoagulant treatment, 482  
 —, —, mammary, implantation into myocardium in coronary insufficiency, 463  
 —, pulmonary, chronic massive thrombosis of, 451  
 —, —, diverticulum approach to, 451  
 —, —, idiopathic dilatation of, 209  
 —, —, stenosis without aortic overriding, postoperative studies, 454\*  
 —, replacement by "orlon" cloth, 47\*  
 Arteriography, cerebral, in study of tumours of cerebral hemispheres, 170  
 — in hemiplegia due to cerebrovascular thrombosis, 236  
 — specific diagnosis of meningioma, 241  
 — thromboangiitis obliterans, 209  
 Arteriopathy, experimental, spontaneous, induced by adrenalinethyroxine and cholesterol, 178  
 Arteriosclerosis, cerebral, mechanism and therapy, 92  
 —, fat tolerance and, 127  
 —, pathogenesis in choline-deficient rats, 257  
 —, peripheral, in diabetics and non-diabetics, results of lumbar sympathectomy in, 293  
 —, pulmonary, pulmonary hypertension and thromboembolism in production of, 373  
 Arthritis, *see also* Polyarthritis  
 —, chronic, after recurrent rheumatic fever, 303  
 —,  $\beta$ -glucuronidase concentration in synovial fluid, variations in, 228  
 —, rheumatoid, "acton prolongatum" in, comparison with gold therapy, 230  
 —, —, aspirin and cortisone in long-term treatment compared, 479  
 —, —, association with psoriasis, 66  
 —, —, autoantibodies in, 304  
 —, —, bone-marrow cytology in, 480  
 —, —, cold-precipitable haemagglutinating factor in serum in, 65  
 —, —, cortisone and corticotrophin treatment in, 63\*  
 —, —, —, pneumonia during, 140  
 —, —, —, sodium pyrocatechol-3-carboxylate treatment, 140  
 —, —, diphenylamine reaction in, 304, 305  
 Arthritis, rheumatoid, early, cortisone and aspirin treatment compared, 229  
 —, —, effect of cortisone and other steroids on peripheral vasculature in, 304  
 —, —, 9- $\alpha$ -fluorohydrocortisone treatment, 228  
 —, —, glycine metabolism in, 140  
 —, —, hexamethonium chloride treatment, 63  
 —, —, in men, epidemiological study in mining community, 64  
 —, —, insulin shock therapy, 389  
 —, —, intra-articular prednisone in, 479  
 —, —, liver function in, 65  
 —, —, —, relation to abnormalities of steroid metabolism in, 65  
 —, —, lung lesions in, 229  
 —, —, medical and social aspects of treatment, and prognosis, 64  
 —, —, mepacrine treatment, 230  
 —, —, multiple intra-articular injections of hydrocortisone in, 231  
 —, —, paraffin-wax baths in, 306  
 —, —, prednisone treatment, 59, 141, 228, 479  
 —, —, —, and prednisolone treatment, 390  
 —, —, prolonged cortisone treatment, 305  
 —, —, —, oral hydrocortisone in, 305  
 —, —, rehabilitation in, 143  
 —, —, relation to pulmonary abnormalities in miners, 64  
 —, —, "resochin" treatment, 230  
 —, —, serum antiplasmin and plasmin in, 66  
 —, —, skin ulceration in, 230  
 —, —, synovectomy of knee in, 230  
 —, —, total rehabilitation in disablement due to, 231, 232  
 —, —, with pneumoconiosis, differential agglutination test in, 65  
 —, —, zone electrophoresis of serum proteins, protein-bound polysaccharides, and serum lipids in, 478  
 Asbestos workers, pulmonary disability in, 495  
 Asbestosis, lung carcinoma in, incidence and special features, 324  
 Ascariasis in children, piperazine adipate treatment, 249  
 —, santonin and intragastric oxygen treatment compared, 358  
 Aschoff nodule in rheumatic fever, histological study, 422  
 Aspirin, *see* Acetylsalicylic acid  
 Asthma, acute diffuse pneumonia in, 282  
 —, aerosols of pollen extracts in, 32  
 —, autogenous bacterial vaccines in, 360  
 —, breathing exercises in, 306  
 —, bronchodilator drugs in, 360  
 —, correlation of blood histamine release and skin test response to multiple antigens, 361  
 —, corticotrophin treatment, 204  
 —, effect of corticotrophin and cortisone on respiratory function in, 114  
 —, experimental, effect of adrenalectomy on, 361  
 —, membrane changes in, comparison with non-allergic pulmonary disease, 262  
 —, outbreak due to castor-bean dust from oil-processing factory, 360  
 —, pleuropulmonary eosinophilia in, 282  
 Asthma, prednisone treatment, 31, 282, 360  
 —, pulmonary forms of periarteritis nodosa in, 282  
 —, severe, corticotrophin gel and cortisone treatment, 114  
 —, —, intractable, prednisone treatment, 360  
 —, sudden death in, causes, 31  
 Ataxia, spinal, due to nutritional deficiency, 310  
 "Atebrin", *see* Mepacrine  
 Atelectasis in pulmonary tuberculosis, 195  
 Atherosclerosis, relation of diet to development, 362  
 Atomic bomb explosion, skeletal system of children exposed *in utero* to, 327  
 Atrophie blanche en plaque, 244  
 Atrophy, muscular, intravenous infusion of amino-acid mixtures in, 149  
 Attention disturbances associated with organic cerebral disease, 309  
 Audiometry, surgical, in stapes mobilization, 472  
 Aureomycin, *see* Chlortetracycline  
 8-Azaguanine, effect in leukaemia, 51  
 Azotaemia, post-mortem diagnosis, 181  
 "Banocide" prophylaxis against filarial fever, 201  
 "Banthine", *see* Methantheline  
 Barbiturate anaesthesia, potentiation by dinitro-*o*-cresol, 83  
 —, carbohydrate metabolism disturbance due to, 446  
 Basilar impression, primary, radiological criteria and familial occurrence, 85  
 B.C.G. intradermal test in estimating results of B.C.G. vaccination, 194  
 — vaccination allergy, effect of repeated tuberculin testing on, 274  
 — by scarification in school-children, long-term results, 106  
 — causing lymphadenitis, 107  
 — in adults, effectiveness, 107  
 —, intradermal, of newborn, suppurative lymphadenitis after, 434  
 — of children, tuberculosis after, 274  
 —, oral, 194  
 —, —, during primary tuberculosis in children, 434  
 —, —, pulmonary tuberculosis after, 435  
 Bell, Sir Charles, life and times, 416\*  
 Bell's palsy, clinical and electromyographic study, 145  
 Benactyzine in psychoneurosis, 312  
 "Benemid", *see* Probenicid  
 Benzathine penicillin control of recurrences of rheumatic fever, 389  
 — in venereal diseases, 280  
 — — —, early syphilis, 28  
 Benzene poisoning, chronic, long-term observation, 252  
 Benzpyrene in cigarette and atmospheric smoke, relation to lung cancer mortality rates, 377  
 Benzyl penicillin, oral, level in blood in relation to food intake, 429  
 Beryllium compounds, disability due to exposure to, 496  
 Biallylamicol in intestinal and hepatic amoebiasis, 348  
 Bile duct obstruction, hepatitis simulating, 343

- Bile, intra-arterial and intravenous injections, reactions to, 259
- Bilharziasis, *see* Schistosomiasis
- Biliary tract disorders, cholangiography in, 331
- "Biligradin" in rapid cholecystography, 88
- Bilirubin in cerebrospinal fluid in haemolytic disease of newborn, 247
- plasma, micromethod of determination, 339\*
- Bilirubinaemia, persistent, after infective hepatitis, 208
- Bisisoquinolinium and bisquinolinium salts, antifungal activities, 270
- Bismuth alone in early syphilis, 28
- in early syphilis, long-term results of intensive treatment, 28
- Bladder carcinoma, intracavitary irradiation, 414
- , —, — with cobalt, 332, 333
- papilloma in mice after peroral administration of tobacco tar, 90
- papillomatosis, radioactive colloidal  $As_2S_3$  treatment, 414\*
- Blanket sterilization with cetyl trimethylamine bromide, 162
- Blastomycosis, pulmonary, treatment, 131
- Blood ammonia content in congestive heart failure, 464
- , capillary, haematocrit of, 260
- cells, *see* Erythrocyte; Leucocyte
- circulation, *see* Circulation
- coagulation disorder due to deficiency of clot-promoting fraction of plasma, 52
- factors, stability in stored blood, 469
- failure in pregnancy, effects of dextran and plasma, 129
- , platelet-fibrin relationship, electron-microscopic observations, 89
- time, estimation by two-syringe technique, 182
- drop test studies, prognostic value in thromboembolism, 420
- flow, cerebral, influence of chlorpromazine and alcohol on, 269
- , coronary, effect of adrenaline and noradrenaline on, 213
- , splanchnic, in health and in cirrhosis, effect of oral protein and glucose feeding on, 119
- glucose estimation, colour production and stability in Folin and Wu method, 179
- groups, ABO, and gastric acidity, 117
- , —, relation to duodenal and gastric ulcer, 117
- antigen and antibody (By) of rare occurrence, 4\*
- antibody reactions, detection by serum-albumin mixture, 182
- incompatibility, demonstration *in vivo* with isotope-labelled erythrocytes, 3
- , O, excess in mothers of infants with haemolytic disease of newborn, Group ABO, 490
- , parental, in aetiology of icterus neonatorum, 490
- , Rh antibodies, experimental and statistical studies, 261
- , — antigen "V", common in negroes, 261
- , —, in exclusion of paternity, 165\*
- Blood groups, Rh sensitivity after repeated injections of Salk vaccine, 261
- in faeces of newborn, experiments in oral administration of blood, 154
- irradiation by Knott technique in infective hepatitis, 272
- lipid level in angina pectoris, effect of lipotropes and sitosterol on, 124
- loss and transfusion, influence on changes in metabolism of water, electrolytes, and nitrogen after trauma, 446
- , nicotinic acid derivatives, content in neurotic patients, 150
- , occult, in faeces, detection by orthotolidine method, 180
- , —, —, rapid test, 92
- oxygen saturation, micro-method of estimation, 3
- pepsin content, correlation with gastric pepsin secretion, 180
- pepsinogen, identity and distribution, 338
- plasma, protein-lipid relationships, influence of sex on, 258
- platelet production studied by depletion technique in normal and irradiated dogs, 2
- , —, sectioned, electron-microscopic study, 4
- pressure, *see also* Hypertension; Hypotension
- , intra-arterial measurement, Pitot pressure in, 214\*
- , "normal" values, 46
- , portal, measurement by liver puncture, 120
- , venous, and sodium retention, relation to oedema formation, 463
- , previously unrecognized transmissible agent in, 424
- serum, electrophoretic pattern in experimental hypersensitivity, 361
- , Factor VII inhibitor, 337
- , beta-lipoprotein and cholesterol content in assessing relation of diet to development of atherosclerosis, 362
- , low sodium levels in, 362
- sugar in healthy and diabetic subjects, effect of glucagon injection on, 58
- level in cholera, 359
- supply of thyroid under normal and abnormal conditions, 93
- transfusion, antecedents of, 334
- , citric acid intoxication during rapid and prolonged, 217
- , effect of plastic containers on erythrocytes in stored blood, 217
- , exchange, in soap poisoning in criminal abortion, 82

 Pneumoperitoneum, diagnostic, 330  
 — in pulmonary tuberculosis, complications, 354  
 Pneumothorax, artificial, follow-up study, 108  
 —, —, problems of anaesthesia in, 498  
 — induction, mechanism, 353

- Pneumothorax, spontaneous, conservative v. active treatment, 376
- Poliomyelitis, acute, in infants under 1 year of age, epidemiological and clinical patterns, 431
- , recent pattern in England and Wales, 161
  - , cardiac output in, effect of intermittent positive-pressure ventilation on, 104
  - , complement-fixation test for, 188
  - , diagnosis by tissue-culture methods, 187
  - , distribution of permanent muscle paralysis in lower limb in, 481
  - , effect of physical methods on mechanism of breathing in, 272
  - , epidemic, case distribution, synchronism, sporadicity, and focal development, 80
  - , epidemiology in Austria and Switzerland, 323
  - , invasive nature and narrow stream of infection, 406
  - , glossopharyngeal breathing for respiratory impairment after, 144
  - , in pregnancy, relation to maternal age, parity, and gestational period, 432
  - , infection, spread in nursery schools, 493
  - , risk of paralytic and non-paralytic forms in household contacts in non-epidemic years, 80
  - , tonsillectomy and, 104
  - , vaccine, Salk, effectiveness in preventing paralytic poliomyelitis, 251
  - , —, Rh sensitivity after repeated injection, 261
  - , virus antigens, modification by heat and ultraviolet light, 427
  - , distribution in monkeys after oral administration, tonsillectomy, and intramuscular injection of diphtheria toxoid, 177
  - , effect on brain cells in tissue culture, 89
  - , preparation for vaccine production, 98
  - , production with combined antigenic characteristics of Types I and II, 96
- Pollen extract aerosols in hay-fever and asthma, 32
- , histological reactions in allergic nasal mucosa due to, 114
- Polyarthritis, electrophoretic patterns of plasma proteins during mud-pack treatment, 390
- , gouty, prednisone treatment, 141
  - , of hand, clinical, radiological, and physio-pathological appearances, 391
  - , properties of substance with characteristics of tissue-specific antibody in serum in, 138
  - , subacute, in adults, responding only to cortisone, 60
- Polymyositis, chronic, cortisone treatment, 395
- Polymyxin B with oxytetracycline, topical, in pyogenic skin infections, 398
- Polysaccharides, protein-bound, zone electrophoresis in rheumatoid disease, 478
- Porphyria, inheritance of, 160
- "Postafene", effect on vestibular function, 379
- Posture, head-low, during positive-pressure ventilation, effect on cardiac output in poliomyelitis, 105
- , recumbent, in pulmonary tuberculosis, 436
- Potassium carbonate and quartz dust, antagonistic biological action, 496
- , deficiency, renal factor in alkalosis of, 362
  - , radioactive, in detection of breast tumours, 169
- "Prantal" cream, anticholinergic properties in dermatoses, 314
- Prednisolone treatment, side-effects, 63
- Prednisone, clinical trial, 141
- , in acute gouty arthritis, 59
  - , —, rheumatic carditis, 139
  - , —, ankylosing spondylitis, 59
  - , —, asthma, 31, 282
  - , —, chronic, 31
  - , —, dermatoses, 152
  - , —, hypertrophic pulmonary osteoarthropathy, 60
  - , —, lupus erythematosus, 59
  - , —, pulmonary emphysema and fibrosis, 219
  - , —, rheumatic carditis, 59
  - , —, diseases, 228, 303
  - , —, rheumatoid arthritis, 59, 63
  - , —, severe intractable asthma, 360
  - , intra-articular injection in chronic arthritis, 479
  - , metabolic effects, 135
  - , or prednisolone in rheumatoid arthritis, 390
  - , —, systemic lupus erythematosus, 480
  - , treatment, metabolic, functional, and clinical aspects, 135
  - , side-effects, 63
- Pregnancy, acquired fibrinopenia in, 129
- , blood coagulation failure in, effects of dextran and plasma, 129
  - , foetal haemoglobin changes in, 421
  - , mitral valvotomy in relation to, 122
  - , poliomyelitis in, 432
  - , reserpine in, effect on infant, 315
  - , pulmonary tuberculosis and, 19
- Prichard, James Cowles (1786-1848), 335
- Primaquine, action in blood and tissue stages of falciparum malaria, 281
- , in vivax malaria, potentiation of effect by quinine and chloroquine, 203
- Probenicid in gout, 284
- , uricosuric action, inhibition by salicylate, 33
- Procainamide in dystrophia myotonica, 149
- Proctitis, idiopathic granular, 34
- "Promacetin" in dermatitis herpetiformis, 314
- "Promedol" in coronary disease, 213
- Promethazine in hypothermia for major surgery, 409
- Propantheline and morphine in intravenous cholecystography, 330
- Prostate carcinoma, radioactive gold treatment, 174
- Protein catabolism in first two days of life in premature infants and multiple births, 315
- , C-reactive, in rheumatic heart disease, lack of correlation with Aschoff bodies in left auricular appendage biopsies, 478
  - , —, test, clinical experience, 427
- Protein, C-reactive, test in ankylosing spondylitis and other rheumatic diseases, 141
- , dietary, effect on total hepatic lipids and their distribution, 115
  - , malnutrition, skimmed-milk treatment, 200
  - , metabolism of premature infants, effect of oxygen therapy on, 400
  - , oral, effect on splanchnic blood flow and oxygen utilization in health and in cirrhosis, 119
  - , radioactive-iodine-labelled, in diagnosis of pancreatic disorders, 119
  - , serum, electrophoretic patterns during mud-pack treatment of polyarthritis, 390
  - , —, zone electrophoresis in rheumatoid disease, 478
- Prothrombin forming function of liver, 224
- , pattern during oral anticoagulant therapy, 346
- Pruritus, "alseroxylon" treatment, 152
- , hydrocortisone and 9- $\alpha$ -fluorohydrocortisone derivatives in, 244
  - , "prantal" cream in, 314
- Pseudohermaphroditism, male, chromosomal sex and, 382
- , —, hitherto unrecognized type, 299
- Pseudopelade of Brocq, relation to lichen planus and some cicatricial alopecias, 152
- Psittacosis-lymphogranuloma venereum group of viruses, complement-fixation test for, 98
- Psoriasis, aminopterin treatment, 152
- , association with rheumatoid arthritis, 66
  - , folic acid treatment, 398
- Psychiatry, 70-1, 150-1, 242-3, 312-13, 396-7, 484-6
- , psychology in, present Soviet attitude, 484
- Psychoneurosis, benactyzine treatment, 312
- Psychosis, chlorpromazine, reserpine, and isoniazid treatment, 151\*
- , chronic, chlorpromazine and reserpine in, comparison, 485
  - , electrically induced sleep in, 151
  - , nitrous oxide treatment, 70
  - , painless myocardial infarction in, 42
  - , reserpine treatment, 71, 313
  - , "thorazine" treatment, 313
- Puberty, precocious, in von Recklinghausen's disease, 223
- Public health, 79-81, 161-3, 251, 320-3, 404-6, 493-4
- Pulmonary stenosis, *see* Heart
- Pulsus alternans, influence of advanced congestive heart failure on, 125
- , mechanical ventricular, diastolic overload in, 211
- Puromycin, tumour-inhibiting activity, clinical evaluation, 192
- "Puroverine", effect on renal function and regional circulation, 43
- Purpura, anaphylactoid, follow-up study with relation to renal involvement, 249
- , cerebral, after penicillin administration, 101
  - , producing painful bruising after autosensitization to erythrocytes in women, 53
- Pyelography, intravenous, with sodium diatrizoate, 412
- , retrograde, renal failure after, 298

- Pyloric stenosis, hypertrophic, in parent and child, 492  
 —, infantile hypertrophic, in twins, 319  
 —, —, —, "skopyl" treatment, 316  
 — tumours, palpable contractile, in newborn, 491  
 Pyrexial reactions, neural factors in development of, 258
- Q** fever after wool-dust inhalation in carpet and plush factory workers, 81  
 — in slaughter-house workers, 81  
 — infection, acute or past, intra-dermal allergic test for, 9  
 — prophylaxis, preparation of antigen and vaccination, 9  
 Quartz dust and potassium carbonate, antagonistic biological action, 496  
 de Quervain's disease, local hydrocortisone treatment, 61
- Rabies treatment before Pasteur, 503  
 Radiation, *see also* X-irradiation  
 — burns, plastic surgery for, 88  
 — sickness after radioactive-iodine treatment, 173  
 —, chlorpromazine treatment, 173  
**Radiology**, 85-8, 169-74, 253-6, 327-33, 410-14, 499-501  
 —, value and limitations of image intensifier in, 499  
 Radiotherapy with 50-g. converging-beam radium unit, 413  
 Ragweed sensitivity, electrophoretic separation of skin-sensitizing antibody from sera in, 32  
 Rauwolfia, *see also* Reserpine  
 — derivatives in hypertension, 372  
 — treatment, depression and anxiety during, 214\*  
 — with pentolinium or hexamethonium in hypertension, 293  
 Raynaud's disease, cutaneous vascular reactions in, 46  
 —, mechanism of finger blanching in, 46  
 Reagin(s), distribution in serum protein fractions obtained by continuous-zone electrophoresis, 10  
 — principle of syphilitic sera, physico-chemical study, 24  
 "Reazide", antituberculous activity, 271  
 von Recklinghausen's disease with precocious puberty, 223  
 Rectum, *see also* Proctitis  
 — biopsy in diagnosis of Hirschsprung's disease, 316  
 "Regitine", effect on renal function and regional circulation, 43  
 Rehabilitation in chronic rheumatoid arthritis, 143, 231, 232  
 Rescinnamine in hypertension, comparison with reserpine, 126  
 Reserpine in chronic psychosis, 485  
 — delirium tremens, 485
